Work Experience

Backend Developer

Jaatak Astro Infotech Pvt. Ltd.

Nov 2025 – Present

India

- Architected and scaled Node.js backend supporting **15K+ monthly active users** with 99.9% uptime.
- Built real-time chat and notification pipelines using Socket.io handling **3K+ concurrent connections**.
- Optimized API performance by **38%** through Redis caching and query refactoring.
- Developed **React Native mobile applications** integrated with real-time APIs and socket events, improving user engagement by **20%**.
- Orchestrated event-driven workflows, reducing service coupling by **40%** and simplifying maintenance.

Full Stack Developer

Sedulous Softech

Mar 2025 – Oct 2025

Noida, India

- Engineered seat-locking booking logic supporting **500+ daily transactions** under high concurrency.
- Integrated WebRTC-based audio/video calling with average setup time below **1.5 seconds**.
- Resolved race conditions, improving booking success rate by **25%** and reducing customer complaints.

Full Stack Developer (Freelancer)

WebHubpoint

Jan 2023 – Mar 2025

Delhi, India

- Delivered **8+ production-grade platforms** across fitness, e-commerce, and CRM domains.
- Launched Fitspot.in serving **2K+ monthly users**, increasing organic traffic by **45%** through SEO and performance optimization.
- Integrated payment gateways processing **Rs. 10L+ monthly transaction volume** with secure transaction handling.

Backend Developer Intern

DRDO (Ministry of Defence)

Sep 2022 – Dec 2022

India

- Developed backend APIs used by **50+ researchers** for secure internal workflows.
- Enhanced database performance, reducing report generation time by **30%**.

Projects

- **URL Shortener:** Built a scalable URL shortening platform with custom short links, redirect handling, analytics, REST APIs, and database-backed URL management.
- **Radio Khera:** Built a production internet radio platform with live audio streaming, podcasts, playlists, real-time broadcasting, and a React Native Android application. [Android App]
- **AstroCaptain:** Built a real-time astrology booking platform with chat, calling, notifications, and wallet-based interactions serving **1K+ daily users** using Node.js, Socket.io, and MongoDB.
- **ElectroniBC Mart:** Streamlined e-commerce checkout flow, reducing abandonment by **40%**, using React.js and Laravel.
- **Custom CRM:** Designed a role-based CRM managing **10K+ records** with analytics dashboards using Node.js and MySQL.

Certifications & Achievements

- AWS Certified Cloud Practitioner
- Semifinalist – Amazon Sambhav Hackathon 2024
- Delivered **10+ scalable backend systems** across multiple domains.
- Completed JavaScript Algorithms – freeCodeCamp.
